To The Trade:

ORDERING

To assist us in giving Customers prompt service, and to eliminate errors, order from this Catalog, giving name of article, quantity, Stock Number, Size, trimming, color, or such other information as to enable us to readily understand what is wanted. When you want to buy duplicates of articles previously purchased from us, it will be a great help in filling your orders if you will give date of previous invoice or exact description of goods, instead of saying "Same as last."

MAIL ORDER DEPARTMENT

SEND US YOUR MAIL ORDERS as they will receive careful attention and promt service. We will gladly supply you with want books, order blanks and envelopes. Please ask for them.

SHIPPING INSTRUCTIONS

Always state how to send goods, whether by FREIGHT, EXPRESS, PARCEL POST or TRUCK. Unless specified we will use our own judgment and send whichever way we think best for our customers.

CLAIMS AND RETURN GOODS

Upon the delivery of goods in good condition to the Transportation Company, our responsibility for that shipment ceases. We will not be responsible for delay, loss or damage, but will gladly assist customers in adjusting claims against Transportation Companies. Claims for errors, shortages or other causes must be made immediately upon receipt of goods. Should articles shipped prove unsatisfactory we ask that you notify us before returning goods, stating the nature of the complaint, so that we may make disposition.

NEW GOODS

We are constantly adding new items to our stock, and if there is any article that you do not find listed in this catalog, kindly inquire about it.

TERMS

TO RESPONSIBLE DEALERS: We extend a credit of 30 days with a discount of 2 per cent if paid within 10 days from date of invoice. Dealers unknown to us will please send satisfactory bank or commercial references, or Cash with order, as this saves time and delay in the execution of orders. When an established credit rating is not given orders will be shipped C. O. D., or shippers order with bill of lading attached to draft. All goods shipped from stock are sold F. O. B. Lincoln, Nebraska.

No charges for Boxing, sacks or drayage.

Please do not mutilate or destroy this Catalog.

In this catalog we show a complete line of Saddlery accessories. Other cataloges showing Harness, Harness parts, Collars, Saddles, Shoe Findings, Luggage, Auto Body and Paint Shop Supplies, and Season Goods will be sent upon request when available.

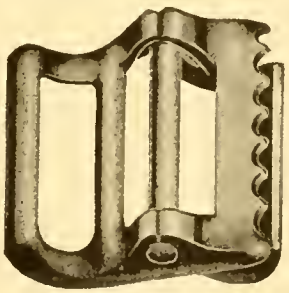
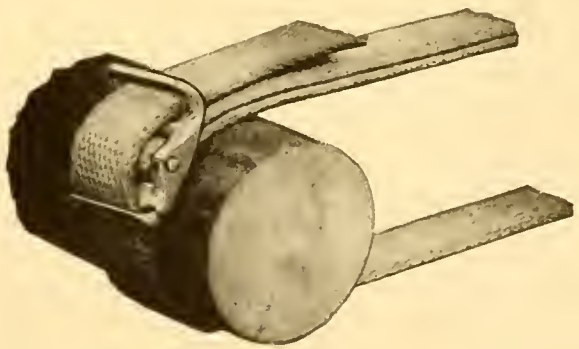
MOLINE HARVESTER BUCKLE



Malleable Iron. Teeth are so designed that they will not cut the webbing but will grip tightly.



The unique feature of this buckle is that it is so designed that it will pass over a roller as small as 2 inches in diameter without releasing its grip on the webbing in the least.

Steen's Patent Winker Brace Fastener

BRIDLE SHOWING NO. 4 IN USE

BRIDLE SHOWING NO. 5 IN USE

NO. 4 FOR ROUND WINKER BRACE

NO. 5 FOR COMBINATION FRONT AND WINKER BRACE

MADE JAP'D BRASS AND NICKEL

Packed--One set in envelope.
12 sets in Box Complete with rivets.

STEEN'S PATENT WINKER BRACE FASTENER

Put them on new work. They help sell the bridles; show your customer how they hold the blind in place, prevent ripping and flapping, add to the general appearance of the bridle, and the winker is bound to stay.

Put them on Repair Jobs and you have done a good, permanent job. You have a satisfied customer and you are making money on what is generally a charity job.

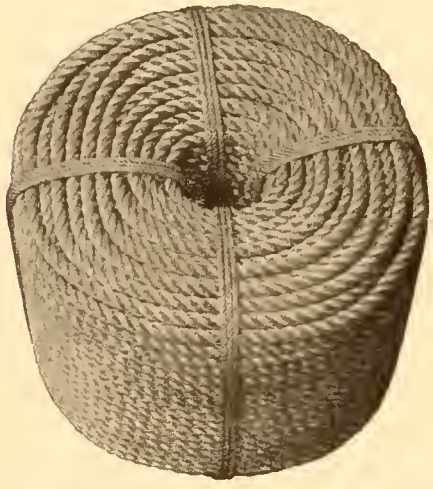
PLYMOUTH ROPE

Why Plymouth Ship Brand Manila is the recognized standard of Rope quality and value

1. Carefully constructed from best quality Manila fiber.
2. Insures high tensile strength, utility and long service.
3. Superior finish, flexible to handle and to splice.
4. Dependable and safe to use.
5. The most economical for your customers.
6. Plymouth Ship Brand Manila Rope is always of the highest quality and is backed by the experience and reputation earned through One Hundred and Nine years of rope-making.
7. Known everywhere as "The Rope You Can Trust."
8. Its uniform quality makes for permanent customers.



Coil Three-Inch Circumference Plymouth Manila

PLYMOUTH SHIP BRAND MANILA ROPE
3-Strand

Our standard, Best quality Minila Rope.

The fiber chosen for the manufacture of Plymouth Ship Brand Manila Rope is of the grades and texture which long experience has determined best suited to produce a strong, easy handling, long wearing, general purpose rope.

Put up in full and half coils of 1200 ft. and 600 ft., except six, nine and twelve-thread sizes, which are put up in coils of 50 and 25 pounds.

PLYMOUTH MANILA YACHT LARIAT ROPE
PLYMOUTH BLACK JACK MANILA LARIAT ROPE

These goods have stood the test of every-day range and corral work on ranches everywhere. Easy on the hands, hold like steel, and have just the right amount of stiffness for accurate roping.

The "silk finish" Yacht Lariat is the stronger and more handsome Rope of the two and is the approved rope for range riders and rodeo contestants throughout the country.

Both items are supplied to the trade in full and half coils of 1200 feet and 600 feet respectively, in a complete range of sizes.

BLUE CROSS MANILA ROPE

Blue Cross Manila is manufactured to meet a demand on the part of certain buyers for a low price, pure Manila Rope, and which represents full value for the money.

Blue Cross Manila is a well constructed Rope, equal to or better than most competive grades. It is, however inferior to Plymouth Ship Brand Manila in color and in the quality of fiber from which it is made, and consequently it possessses less strength and durability.

Rope of this quality should never be recommended or sold for use involving hazardous undertakings.

PLYMOUTH JAVA ROPE

Made from pure, unmixed Java Sisal and carries the Plymouth name and famous Ship trade-mark.

In fiber content, construction and finish, it is superior to many of the low-grade Manila Ropes on the market. It has approximately 80% of the breaking strength of Plymouth Ship Brand Manila Rope.

PURITAN SISAL ROPE

Represents excellent value where a less expensive rope will serve acceptably. It is of the same excellent construction which characterizes all Plymouth Rope. Puritan Sisal Rope is offered in all the popular sizes and is priced to successfully meet competition.

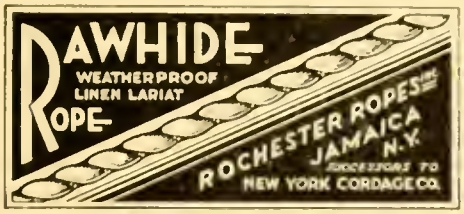
PLYMOUTH

• SHIP BRAND MANILA ROPE •

THE ROPE YOU CAN TRUST

FOR PRICES AND SIZES SEE PRICE LIST

LARIAT ROPE



Put up on approximately 600 foot spools. 3/8 weighs approximately 38 lbs. per roll. 7/16 weighs approximately 50 lbs. per roll.

A high grade linen rope that has a similarity in appearance and feel to rawhide.

Per lb. _____

SAMSON SPOT SASH CORD

A braided cotton rope of unusual strength. Put up in hanks of 100 ft. No. 8 weighs approximately 3 lbs., No. 10 weighs approxihately 3¾ lbs. and No. 12 weighs approimately 5 lbs. per hank.

No. 8 Per lb. _____

No. 10 Per lb. _____

No. 12 Per lb. _____

CROCKETT HONDA

Trips Regardless of Weight

The "Crockett" Honda is made so that, regardless of weight, you can depend on it always tripping.

You can readily release a struggling animal without releasing rope from Snub Post or saddle horn, no matter how tight the rope is drawn.

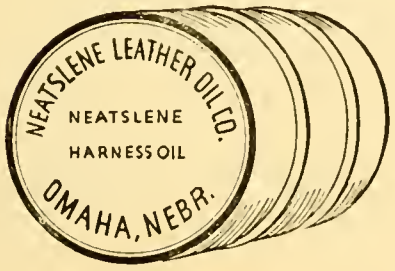
HARNESS OIL

NEATSLENE HARNESS OIL

PRESERVES LEATHER



For Dipping Harness. In Two Colors, Light and Dark

It has no Lamp Black in It. Made by taking Fish Oil, cooking it, filtering and thinning it down and blending pure animal Neatsfoot Oils into it to the proper weight for dipping purposes.

In dark Neatslene we add a non-stainable black dye which gives the harness a nice, dull black luster, more like a new harness which will not rub off on the hands or hides.

NEATSLENE is unlike any other harness oil we know of and is a guarantee against Rats and Mice gnawing the leather if dipped in Neatslene within one year.

NEATSLENE softens, preserves and adds new strength to leather, Fish Oil closes the pores in the leather as it is a slower pentrating oil and resists the action of the sun, wind, rain, dust, ammonia fumes and makes the leather weather and water-proof for one year. Also good for greasing shoes, boots, etc., or any composition of leather exposed to the weather.

Any harness dipped in Neatslene once each year increases the life of the Harness from 25% to 50%, as well as makes it soft and pliable and more agreeable to the horse.

We will help you sell it with our clever advertising stunts.

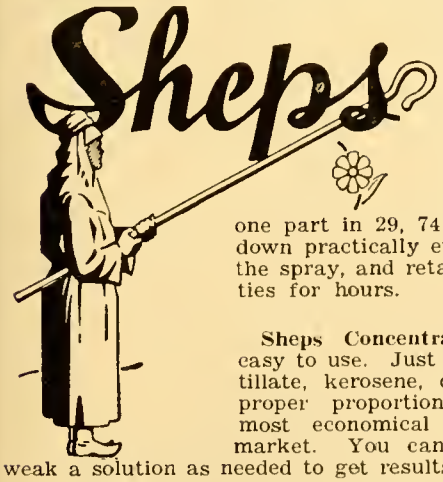
CONCENTRATED CATTLE SPRAY



Sheps Concentrated Cattle Spray is now more highly concentrated. When mixed 1 part in 14 of oil dilutent, it will, according to the Peet Grady Tests, have a killing power of 82%; one part in 29, 74% kill. It will knock down practically every insect touched by the spray, and retains its repellent qualities for hours.

Sheps Concentrated Cattle Spray is easy to use. Just mix with ordinary distillate, kerosene, or tractor fuel in the proper proportion and you have the most economical cattle spray on the market. You can make as strong or weak a solution as needed to get results

Absolutely Safe to Use. Will not burn or blister the hide, mat the hair, or taint the milk. Veterinary tested and approved. Sold on a money-back guarantee. Used by farmers, dairymen and livestock raisers with absolute satisfaction. Kills flies, mosquitoes, gnats, lice and mites on cows, horses, hogs and poultry. Use also on places where these Insects breed, as manure piles, swill pails, garbage cans, etc.

DEALERS: Make your own cattle fly spray for bulk sales. For a highly effective fly spray, one which will keep your customers coming in for more because of its electric-like swiftness of action, use one part concentrate to make 15 gallons of spray—mix with kerosene, distillate (tractor fuel) or very light paraffine oil. The cost to you, based on the 5 gallon price of our concentrate, and distillate at 7c per gallon is 43c per gallon. You may sell it for 75c and make a profit of 60%.

For a spray of better than standard killing power mix 1 gallon of Sheps Concentrate to 29 gallons of dilutent. Costs you 25c, can be sold for 50c a gallon, with a profit of 100%.

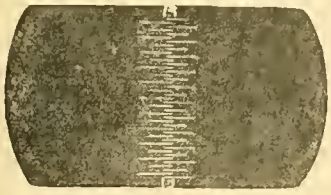
Price each ..... _____

For Staples see Page 378.

Detroit Belt Lacing & Closing Machines



Detroit Belt Lacing shows the least reduction of belt strength, because it gives the least reduction of area possible consistent with tensile strength of joint.

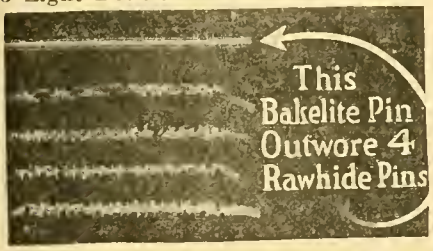
Takes a perfectly staggered hold of belt by using a long hook, then a short hook. Each hook has an equal length of legs. Cannot pull out.

These belt lacers are put up 84 hooks to the section, full 12 inches long, and packed 12 sections in a box, or 144 inches of lacing with six 12-inch lengths of Detroit-Bakelite pins.

Open Hook — Closed Hook

Twelve-inch strips cut without waste for any widths of belt. Detroit hooks, firmly mounted on rubberized paper, can be handled any number of times and cut with an ordinary knife without displacing a hook.

No.	For Kind of Belt	Per Box	No.	For Kind of Belt	Per Box
2	Very Light Single Belt	——	6	Heavy Dble. Belt	——
3	Light Single Belt	——	7	Heavy Double, or 1 or 8 ply fabric	——
4	Heavy Single Belt	——	A	Ass't 2, 3, 4, 5	——
5	Light Double Belt	——			



A Bakelite Pin (Top) and 3 Rawhide Pins Tested Against It.

A large percentage of belt lacing failures are due to the breaking of the rawhide pins. Detroit-Bakelite pins are water, oil and acid proof. Will outwear from 3 to 8 rawhides.

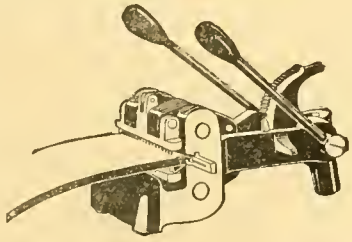
These pins are furnished with all Detroit Lace.

Extra Detroit-Bakelite Pins

Boxes contain 25 pins 12 inches long.

No.	2	3	4	5	6
Diam., inches	3-32	3-32	7-64	1/8	9-64
Per Box	——	——	——	——	——

No. 6 Detroit Closing Machine



Will lace up to 6 inches in one operation and repeat.

Built of high grade special steel and malleable iron. Holder or magazine is removable for convenience in placing hooks.

Either handle operates machine, leaving one hand free to hold belt. Shipping weight 30 pounds.

No. 6 ..... Each ——

No. 4 Detroit Vise Tool

This tool is for use in an ordinary vise. A handy tool in any shop. It has enough spring to hold itself properly in place at all times.

It insures uniform work.

This tool is so constructed that the jaws always close evenly together. Will lace belts up to 4 inches in width.

Shipping weight 21 ounces.

5 inch		
6 inch		

Sizes	Double Ply	Per Ft.
4 inch		
6 inch		

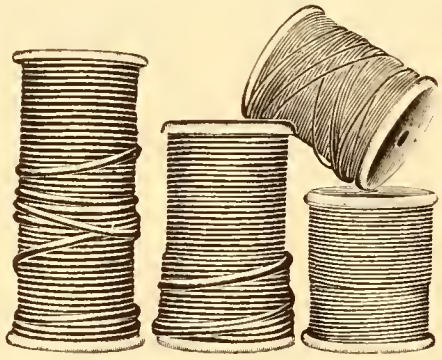
Endless belts with waterproof cemented splices can be supplied. Send measurements for quotations. 24-hour service.

See page 419 for belt Lacers (Metal).
See page 421 for belt Lacing (Leather).

ROUND

We carry a good grade of round leather belting. It has given universal satisfaction for many years and we can recommend it. Carry a few sizes in stock and see how rapidly it will move. All you have to do is to display it in a prominent place.

1/8 inch per ft.	
¼ inch per ft.	
5/16 inch per ft.	



⅜ inch per ft.	
½ inch per ft.	

1/8 inch is commonly used on household sewing machines. See page 419 for belt hooks.

"V" SHAPED BELTING

"V" shaped belting is not as generally used as the flat or round but is necessary for certain types of work.

⅝ inch per ft.	
¾ inch per ft.	

LACE LEATHER

Lace Leather is divided into two kinds of tannages—Indian Tanned and Chrome Tanned. We carry both kinds and invite you to try your preference. We assure you that the minimum cutting waste and maximum strength per dollar will be found in the following brands—

Oriole (Indian Tanned) is the best known brand and found to run uniform at all times. 13 to 16 ft. sides.
Per foot ..... ———

Tuf-Tan (Indian Tanned), a good grade, close trimmed pliable leather that is used and recommended for sale purposes to farm and small users. 13 to 16 ft. sides.
Per ft. ..... ———

Bellamy (Indian Tanned), a cheaper leather tanned similar to Oriole. Good quality for the money.
15 to 18 ft. sides. Per ft..... ———

Royal (Chrome Tanned). Yellow full grain leather that is recommended as the best chrome tanned leather. Has greatest tensile strength and marvelous wearing qualities. Closely trimmed whole hides.
18 to 22 ft. hides. Per ft..... ———

Split Lace is much less expensive and can be used for many purposes aside from belt lacing. Reinforcings, boot laces, collar repairing, automotive housings, etc., are just a few suggestions.

Blue Bird, blue chrome split. A general purpose leather. Very soft yet durable.
7 to 12 ft. sides. Per ft..... ———

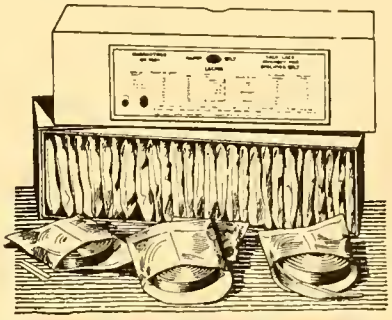
Brown "Mule," split cowhide lace, chrome tanned, very tough, medium weight, attractively priced.
6 to 9 ft. sides. Per ft..... ———

Giant Thong, split, especially suitable for sewing collars. Every repair shop doing this kind of work should have som on hand.

Caution: Be sure to soak the laces thoroughly before lacing collars. 7 to 9 ft. sides. Per ft. ———

CUT LACE

Cut Lace is very well adapted to retailing. The dealer can determine the cost of each piece and need not buy large quantities. The following are rare values—



MOHAWK CUT LACES

Mohawk Cut Lace is Indian tanned. Put up in 100 foot boxes. All laces uniform width.

¼ Inch. Per 100 ft..... ———
⅜ inch. Per 100 ft..... ———
½ inch. Per 100 ft..... ———

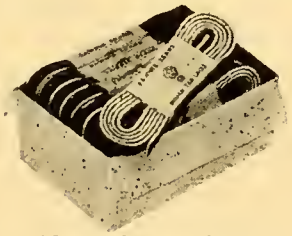
HANDY INDIAN TAN CUT LACE

Handy Cut Lace put up in cartons. Each lace in a separate envelope. Cut from select Indian tanned leather. Guaranteed 100 ft. in a carton.
¼ inch (35 laces in a carton). Per 100 ft..... ———

⅜ inch (twenty 60-inch laces in a carton). Per 100 ft..... ———

½ inch (17 laces in a carton). Per 100 ft..... ———

PAWNEE INDIAN TANNED



New Way Package
Each lace packed in a separate box.
Twelve laces in a carton.

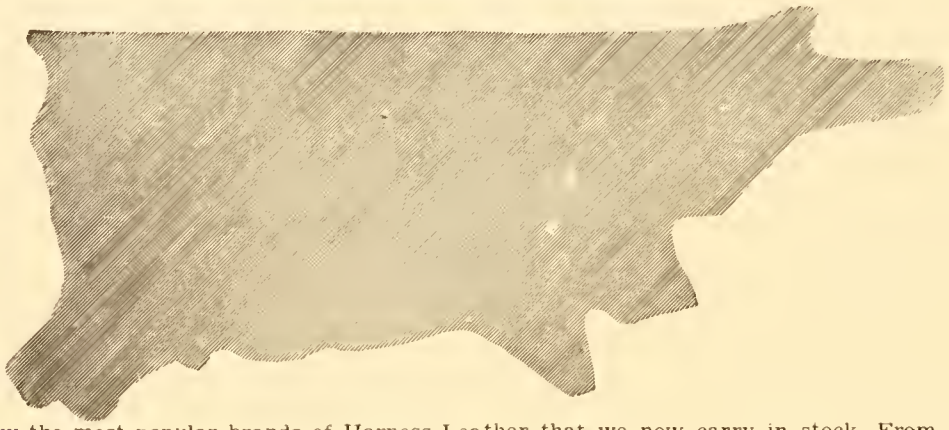
HARNESS LEATHER



We are listing below the most popular brands of Harness Leather that we now carry in stock. From time to time we have other brands that can be puchased at special prices and if you will write for quotation, we will be very glad to quote you up-to-date market prices on all kinds in stock. When ordering, Please specify the following.

Kind—(Brand name).
Weight—(Light, Medium, or Heavy).
Size—(Plump, Medium, or Spready).
Use—(if possible, state what kind of straps are to be made from the leather).
Eaxmple: "1 Side Oakwood leather. Heavy Plump for breast and pole straps."

HARNESS LEATHER SIDES

Oakwood Harpham custom shop selection. California tanned. A well know brand in a selection that has been found best for the average shop in this territory. It is well finished and has a strong fiber.
Oakwood—10 Sides in a roll—19 to 24 lb. sides. Per Lb. _____

Buckhorn Oak Put up especially for us. Many years of constant usage have proved it to be well adapted for work in this territory. Old time oak tanning methods used in manufacturing it have made it one of the most popular leathers we sell.
Buckhorn Oak—5 Sides in a roll—18 to 24 lb. Sides. Per lb. _____

Chestnut Oak A strong fibered, light weighing, oak tanned leather made from select packer steer hides. Put up under our label and specifications for many years. Time tested. Most universally used where new as well as repair work is required.
Chestnut Oak—5 Sides in a roll—18 to 26 lb. Sides. Per lb. _____

Saginaw Another one of our Special brands that we can recommend as a very light weighing, tough fibre leather. Nicely finished, and uniformly selected .Especially favored by the large shops.
Saginaw—10 Sides in a roll—19-22 lb. Sides. Per lb. _____

Cherokee If you are looking for an ideal leather for making new harness, we suggest that you try "Cherokee". Bright flesh, tough fibre, nicely finished packer hides. Closely trimmed. Has been popular with large shops. Roll prices and advantageous cutting permit high quality at reasonable resale prices.
Cherokee—10 Sides in roll—17-24 lb. Sides. Per lb. _____

Banner A hardware store leather. Selected to give the hardware merchant a nice, even, clean cutting leather for small repair jobs or for selling to his trade for farm repair work. Also used by many harness repair shops where their work is principally repairing.
Banner—10 Sides in a roll—17-24 lb. Sides. Per lb. _____

Erie A popular priced leather that can be sold for home repair purposes or where price is one of the most important considerations. A good grade leather at the price. Selected for the smaller custom shops or farm use.
Erie—10 Sides in a roll—17-24 lb. Per lb. _____

Tuftan Tan Tan harness leather, extra fine finish, long fibre, closely fleshed and trimmed, unusual tensile strength. Makes beautiful strap work and harness accessories. A little of this is necessary to repair the tan harness in your territory.
Tuftan—10 Sides in a roll—18-23 lb. Sides. Per lb. _____

HARNESS LEATHER BACKS

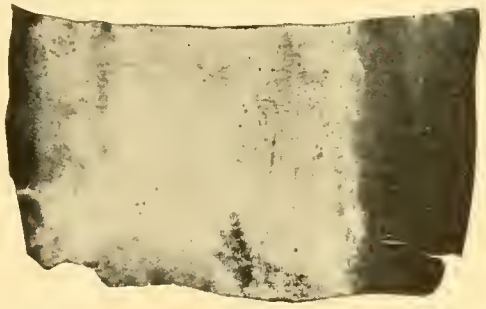
Many shops have difficulty in disposing of bellies and therefore where the work is such we recommend backs.

Niagara—Heavy weight backs, closely cropped, excellent for all repair, and for many new jobs. The economical cutting and excellent wearing qualities have made these backs very popular for many years.
Niagara—10 Backs to roll. 21 to 25 lb. Backs. Per lb. _____

Chestnut Oak—A trifle smaller and more closely cropped back. This is the regular **Chestnut** Oak leather with the belly taken off. A good general purpose leather.
Chestnut Oak Backs—10 Backs to a roll 16 to 20 lb. Backs. Per lb. _____

HARNESS LEATHER

SHOULDERS



To many shops Harness leather shoulders solve the problem of economical cutting. For repair purposes, halters, hame straps and other items where extreme length is not required.

Harness Leather Double Shoulders
(As shown in illustration) 6 to 8 Iron in Thickness 9 to 11 lbs., 3 to 4 feet long, each. Per lb..... ———

Harness Leather Single Shoulders
(Half the size of double shoulders)
6 to 8 Iron in Thickness. 4 to 6 lbs. in weight. Per lb..... ———

Harness leather bellies are the cheapest leather. There are many places in repairing where these can be used. The bellies we offer are cut well up to the "break" and can be had in light, medium, or heavy weights.
Harness leather bellies . Per lb..... ———

SKIRTING LEATHER

(SADDLE LEATHER)

Skirting leather (fair) is used principally for making saddles. We offer you an unusual selection in all weights. Oak Tanned, light weight, strong fibre 14 to 17 lb. Sides. Per lb..... ———

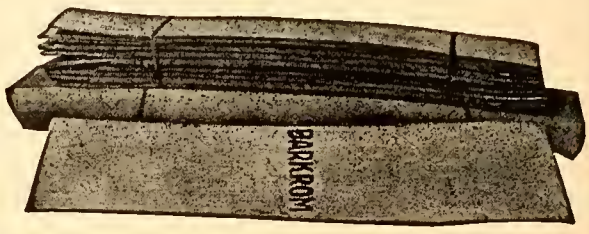
BELTING LEATHER STRIPS

Belting leather strips are the by-product of manufacturers of machine belting. There is usually a strong demand for this leather and therefor not always available.

Dearborn Belting Strips are long and even. Oiled Finish. Excellent for strap work, binder canvas billets, etc. 7 to 10 Iron. Per lb. ..... ———
Weight about 1½ to 3 lbs. 7 to 9 Inches wide.

Walton Belting Strips are light colored and cut to very little waste. Weight about 8 to 10 Iron. 5 to 7 inches wide. 1½ to 3 lbs. per strip. Per lb..... ———

SOLE LEATHER



Barkrom sole leather is double tanned. Double wear is therefore possible. It is light weighing and therefore costs you no more than regular first class oak tanned leather. Barkrom leather is carefully selected. Heavy weights are scarce on account of shrinkage when double tanned. Excellent for cementing. We carry the following in stock for your convenience.

SOLE LEATHER

H. B. BRAND TRANDRITE

H. B. BRAND FLEXRITE

TRANDRITE MEN'S ANGLE TAPS

HB Trandrite sole leather is a new addition to our line. Several years of careful observation and "wear testing" contributed to our choice of this leather to carry our trade mark. The wearing quality is unsurpassed and the extra swing cut of the tap makes it the most economical for both repairman and user. More and better top lifts can be obtained from these taps. This is one of our largest sellers. If you have not already used it, find out what perfect satisfaction really is.

COTTON FLANNEL GLOVES AND MITTENS

HUSKING MITTENS

Golden Giant Gloves and Mittens have for many years been the standard of comparison throughout this territory. The long fibre cotton woven into this flannel, as well as the extra heavy weight of the glove, is the secret of its long wearing qualities. The slogan has been and still is "Golden Giants husk more bu shels per pair." See listings below for sizes and styles.

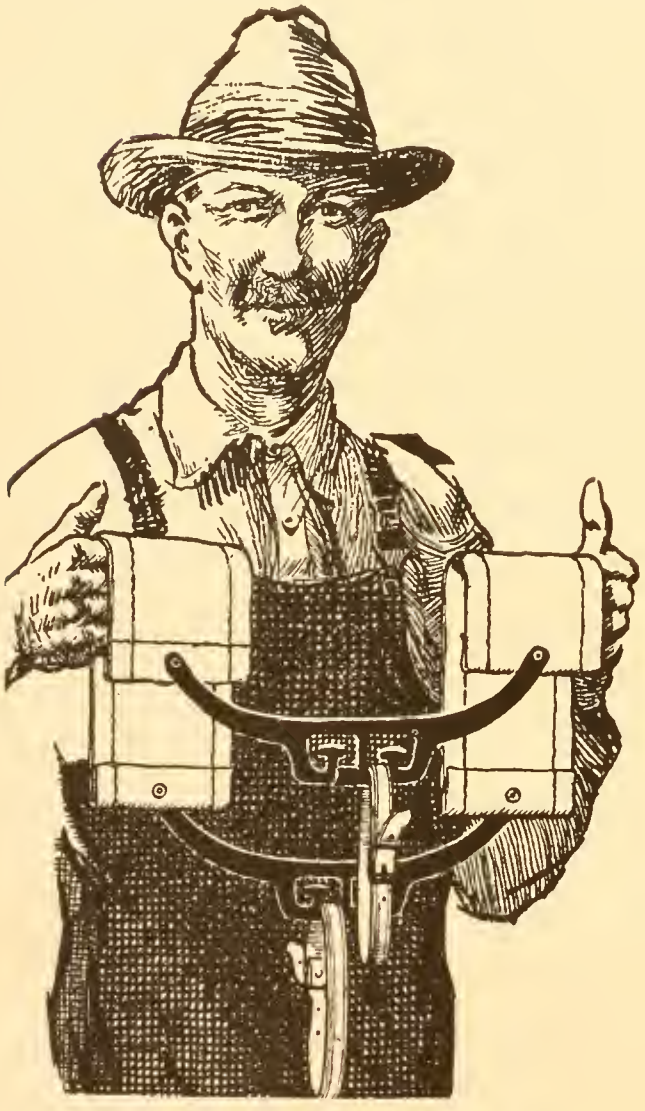
WABASH BRIDGE COLLAR PAD

The **Wabash Bridge Collar Pad** is the simplest and most practical method ever devised for curing collar sores on the neck while you work the horse. It is the common sense way. It removes the cause.

The **Wabash Bridge Pad** bridges the collar and lifts the weight from the sore spot, giving instant relief and allowing the sore to heal while the horse works.

Get a **Wabash Bridge Pad** and have it when you need it.

The **Wabash Bridge Pad** is not an experiment. It has given remarkable service to thousands of team users for over twenty years.



Rush season. Working against time. Every horse going to the limit. Then old Barney slacks up. Sore neck! Some folks would work him a while longer, then turn him into the pasture to get well.

But not me. No, sir! A horse in the pasture is a dead loss. I don't wait for collar sores to get bad. Soon as one shows up —on goes the Wabash Pad. I buckle it up so the collar is clear of the sore, then go on with the work. Barney has forgotten he has a neck.

I have had my Wabash Pad six years now and I figure it has saved me a couple of hundred dollars, all told. The time lost in rush seasons would mount into money. I got more real value out of the $1.25 I spent for the pad than any other $1.25 I ever spent in my life.

Retails for $1.25. West of the Rockies $1.50.

WABASH TOP COLLAR PADS

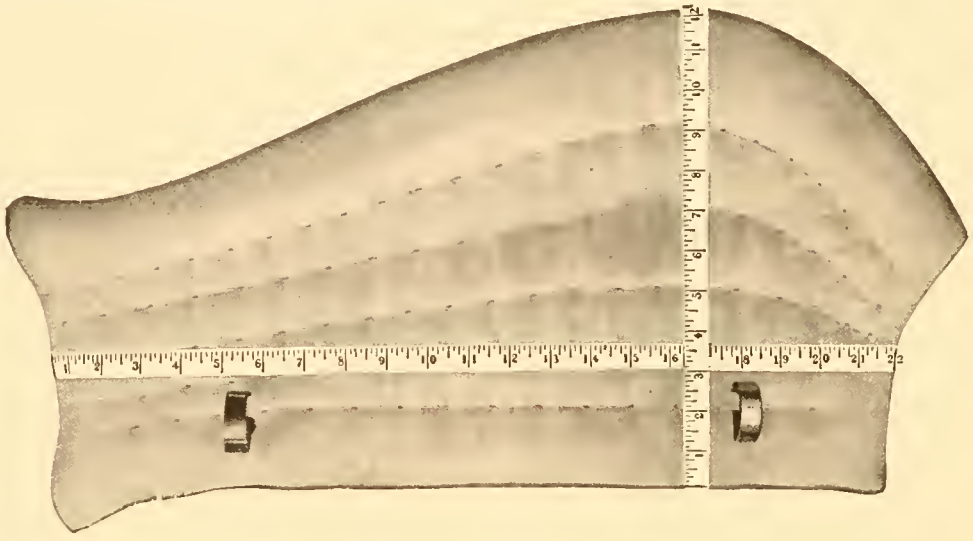
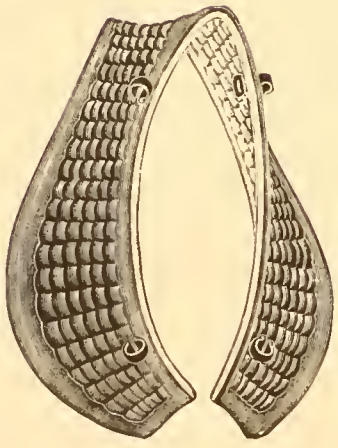
SWEAT PADS

HOW TO MEASURE A PAD

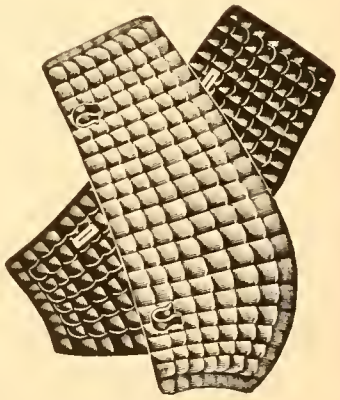
Measure with tapline as illustrated, measuring from seam to seam at points shown on illustration. The width of the draft is based on 21 inch size. Larger pads increase and smaller pads decrease in width at the ratio of ¾-inch for each inch in length.





No. 320

TAPATCO
REGISTERED TRADE MARK BRAND



No. 321

Brown Drill Back. Heavy Enamel Drill Face.
Jutine Stuffing.
Four Hooks. Seven Rows Quilting.

THE THINNER PAD is just what its name implies. It is designed to meet the demand for a Pad not so thick and full as regular. It is stuffed light and the seven rows of quilting serve to make Pad firm and thin. The appearance is very attractive.

Per dozen. Sizes 19 to 26..... ———

Jutine Stuffing.
Brown Drill Back. Heavy Enamel Drill Face.

Four Hooks. Four Rows Quilting.
Made Open Top (in halves) Only.

No. 321—Per dozen ..... ———

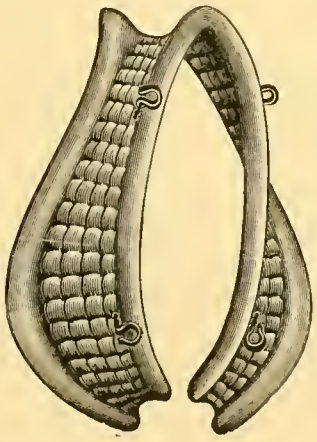
(Same as No. 320 but two piece)

SWEAT PADS

No. 512



TA-PAT-CO REGISTERED BRAND TRADE MARK

Odd Gold Drill Back. White Drill Face
Jutine Stuffing. Four Hooks. Five Rows Quilting.

A strip of Red Felt (not pinked) inserted in and extending around the outer edge gives the Pad a handsome and finished appearance.

U. S. THINNER

Blue Drill Back. White Drill Face. Jutine Stuffing.
Four Hooks. Seven Rows Quilting.

A strip of Red Felt (not pinked) inserted in and extending around the outer edge gives th Pad a handsome and finished appearanc.

THINNER PAD is very attractive in both color combination and design.

Above Pad is made in 11″ width only, which meets all requirements for a Pad of this character.

THE THINNER PAD is just what its name implies. It is designed to meet a demand for a Pad giving the satisfactory and practical results assured by use of Collar Pads, as regularly made, yet wanted thinner. The lighter stuffing and seven rows of quilting give the desired result.

HARPHAM BROTHERS COMPANY — 808-814 P STREET, LINCOLN, NEBRASKA

LOOK FOR THIS LABEL ON EACH BIG 4 PAD

The BIG FOUR sweat pad is built strictly to our specifications and is guaranteed and wholesaled only by HARPHAM BROTHERS COMPANY, Lincoln, Nebraska

BIG 4 Sweat Pads

Four Big Features

1. This pad is stuffed with a scientifically cleaned and moth proofed mixture of genuine deer hair and composite—making a light, springy, quick drying pad that has all the valuable healing qualities of deer hair.
2. The strong cover material that is full cut, is cool and will not fade on the horse's shoulder.
3. New and improved finished hooks that are doubly rust resisting—specially tempered to stand severe bending and large shaped to fit large collar rims. Patented hook fasteners give added protection against tearing and add to the life of the pad.
4. A full size, well stuffed pad that will give full value in comfort for the horse and long wear.

Sweat Pads have been a very competitive item. This prompted us to bring out the "Big 4" Sweat Pad. It is sold on a quality rather than price basis.

It eliminates chain-store and cut-price competition. Made with the best features of the best pads and sold through selected dealers. You can get a greater profit because the pad is worth more. Set your own price at a fair margin for yourself and use it for a profit item.

If you will put forth a little sales effort on this pad, explaining to your customer the features of this pad, you will be surprised at the ready response to your efforts.
